written by: Joshua Calvin

65 million years ago in an alternate universe where the dinosaurs never went extinct a universe where every single dinosaur from every time period coexist with each other a time where large mammals and dinosaurs walked together in the same planet this is where our story begins.....

"Cmon Were gonna be late!" said a baby triceratops.

"Im going Im going!" Said a baby stegosaurus.

These two younglings are Jake (triceratops) and max (stegosaurus) They are in a hurry because they over slept and Its time for school. A few minutes later they finally entered the school just in time.

"You two Were late!" Said a Elder pachyrhinosaurus.

"Were sorry we over slept" said Jake.

"Its alright we make mistakes" said the Elder pachyrhinosaurus.

"Now theres no lessons for today do you know why?" Said the Elder pachyrhinosaurus.

All of the students are confused.

"Todays a field trip to Grand falls!" Said the Elder pachyrhinosaurus.

All of the students Were excited and delited.

"Woo hooo lets go" said max and jake.

Max, Jake and the other students went back to there homes to tell there parents about the field trip to Grand falls and soon they all gathered at grand falls.

"here we are grand falls are we missing anyone. No? Ok so theres some rules no pushing no bullying and um no Biting other people!" Said the Elder pachyrhinosaurus.

"Wow look at the size of those water falls" said max.

"Its Abit boring tho..." Said Jake.

"Oh cmon theres alot of things to do here like um..... I don't know maybe something cool would happened"

Said max.

"Doubt there would be anything cool here" said Jake.

Suddenly small rocks starts to fall from the water fall.

"Thats strange? Why is it pouring out rocks now?" Said max.

The out of no where large bolders fell on to the lake knocking and killing any dinosaurs in the way.

"EVACUATE!" Said the Elder pachyrhinosaurus.

While the other dinosaurs ran away

The children were panicing on whats going on. Suddenly a pack of Velociraptors jumped out of no where and started killing some of the babys max and jake and a herd of baby dinosaurs escaped in the opposite direction.

"Don't let some of them escape you twits!" Said a scarred Velociraptor

Meanwhile max, Jake and the herd are in a desert Like biome.

"WHAT WERE DOES THINGS!" Said max while crying.

"I don't know But That's not the case WHERE ARE WE" Said Jake .

"I think we are in a desert..." Said the apatosaurus.

"We know what do you think we are blind" said Jake.

"Well That's a bit rude!" Said the apatosaurus.

"Those weird lizard things are gonna pay!" Said Jake.

"Let's just find a place to sleep. we can't go back or those weird lizard things are gonna find us and kill us!" Said Max.

"Ok let's go everyone" said Jake.

Soon they all found a cave and decided to rest there for the night.

"Where are they"

"I don't know"

"If we find those yummy snacks then we will be full as a fat chick!"

"Doubt we will find them if we can't find them then boss will kill us literally"

our group has manage to survive. the Velociraptor packs havent showed up but they have a bigger problem.

"Lm hungry...." Said a baby ankylosaurs.

"Were all hungry is there any food in this God damn Cave!" Said Jake.

"Ooh greens stuff *eats Moss* EW IT TASTE DISGUSTING!" Said max.

"Then why did you eat it!" Said Jake

"I thought it was like those green stuff we eat back in the great valley"
said max

"Sigh anyways let's get out of here or we will starve" said jake

"NO WHAT IF THOSE THINGS RETURN!!" Said max

"No they won't!" Said Jake

Suddenly they hear a loud roar coming from the cave. The sound gets closer and closer and closer....

Until

A carnotaurus appeared and attacked our heroes stepping and crushing anyone in the way.

"RUN!" Said the apatosaurs

"Take this you beast!" Said Jake as he pushed a giant bolder to the carnivores foot and crushed. The beast screeches in pain as the giant tumble to the ground. Rocks began to bury the creature killing it. Our heroes and the herd escaped the cave and now must search for another place to rest

"What happened here"

"Poor big horn guy thing he got smashed"

"Hey look foot prints!"

"I'll tell the boss about this!"

"WAIT FOR ME!"

Our heroes left the cave in search of a home to sleep in but instead there lost in a field of sand struggling to find water and food

"Lm sooo tired...." Said max

"And hungry", said the apatosaurs

"Don't worry we will find food and water i promise" said jake

"Ok let's hope this will end soon" said max

"So what's your name?" Said Jake to the apatosaurs

"The names Sally nice to meet you"

Said Sally

Suddenly Jake hears a strange noise

"Everyone hide!" Said Jake

As the herd ran and hides behind a giant hill they can see something big something terrifying.

A large adult brown tyrannosaurus Rex walking among the death plants and bushes finding some water this tyrannosaurus is named by many as The brown devil.

The brown devil finds a small lake and drinks the water from the lake

Jake, max, Sally and the herd walked slowly to not get caught. Suddenly *crack!* Max stepped on a dead bush.

The brown devil notice them and roars at them and chases after them

Jake and the herd ran for there lives

But the brown devil dint have enough energy to run so stoped and let
Jake max and sally go.

"We almost died because of you!" Said an angry Jake

"ME! THE DEAD BUSH WAS IN THE WAY!" Said an angry max

"CAN YOU BOTH STOP FIGHTING!" Said an angry Sally

"Fine" said max and jake

The herd continued there journey to the hills to rest but there's a big
surprise on the top of the mountain.

our heroes have made it out of the desert and now in a deep swamp filled with frogs are dirty mud

"I hate this place it's so dirty and yucky" said Sally

"It's better than nothing" said Jake

"I don't feel safe" said a baby Ankylosaurus

"Yeah something feels weird it's like something is watching us" said a baby styracosaurus

Meanwhile in the mountain

"Is that them i hear?" Said a baryonyx

"It's them alright" said a scared raptor

"Excellent we shall take all down now"

"Hey um why can't we just let them alone?" Said a Velociraptor

"IF WE DO THEN ALOT OF CONSEQUENCES IF WE LET THEM BE"

"Like what?" Said the Velociraptor

"They will get revenge i think" said the baryonyx

"Ok blindy yon go down there and pretend to be good and let them in the trap we set up" said the scared raptor

"As you wish"

Soon the blind baryonyx came down the mountain with the help of two saber tooth tigers in a leash

Suddenly our heroes heard a stomping noise coming from the mountain and hide behind the bushes
It was very loud very loud the ground almost shaken until a moment of silence....

Suddenly came out the baryonyx came out of the bushes

"HELLO? WHOS THERE SHOW YOURSELF?!" Said the blind yon in a innocent voice

"Uh hello?" Said max

"Huh? A voice? WHOS THERE!"

"Uh my name is max this is Jake and Sally and our heard wait are you blind?"

"Why yes my friend i became blind because of neanderthals shooting arrows in my eyes"

"Oh that sounds terrible"

"Indeed it was i was scared for life"

"Say are you herbivores or something"

"U-uh no no Sr"

"Ooh ok then what type are you then?"

"Uh horned large ones"

"Dilos ceratosaur or majungasaur?"

"Uh dilophosaurs Sr"

"Ah ok then"

"Are you lost"

"YES WE ARE WE ARE TRYING TO FIND OUR PARENTS!"

"then follow me i know the ways"

"But your blind"

"I have great hearing"

"Oook then"

"Hold on there i need to go to the restroom real quick"

As blindy yon left the trio discuss about the suspicious Stranger

"ARE YOU SURE WE CAN TRUST THIS GUY WE DONT EVEN KNOW WHO HE IS!" said Jake in a angry voice

"Well... He looks kinda nice" said max

"Yeah i mean he's just a poor old blind baryonyx" said Sally

"BUT HES A CARNIVORE WE CANT TRUST A CARNIVORE!" said jake

"How about this we pretend we don't know anything then after we go to he's "place" then we will run away i mean he's blind or we can walk away slowly" said Jake

"Sounds good to me" said max

"Lm back say what were you mumbling about"

"Oh nothing we were chatting of how um nice you are"

"Aww thank you"

"Let's go now kids"

As the heroes follow blindy yon the red raptor and he's pack are prepared for the ambush. Soon they stopped at a large canyon

"Ok now" whispers Jake

"Your not running away aren't you?"

Said blindy yon

"I have very good hearing you know"

"Uh no sir were not" said max

"I KNOW WHAT YOUR GONNA DO ILL BREAK ALL OF YOUR ARMS AND LEGS"

"AND ILL BREAK YOUR LEGS ASWELL!"

Suddenly the pack arrives and circle the herd they are now trapped if any of them move they will be killed

"No where to run you trouble making bastards" said the sccared raptor

"WHO ARE YO- no even better What are you!" Said Jake

"The names redburg boy the greatest hunter to ever existed"

"Sounds like a stupid name"

"WHY YOU!"

"It's fine redde stay where you are i may be blind but i can deal with these kids my self-"

Suddenly the ground started to shake

"RUN BOYS RUN WE GOT THE BROWN DEVIL ON OUR BACKS!" said a raptor

"WHAT THEN WE MUST FIGHT" said blind yon

"but we are too small"

"NONSENSE WE ARE TOUGH ENOUGH"

As blind yon was mumbling and talking about how he can defeat the brown devil the others ran for their lives.

"HUH? REDBURG AUSTRI WHY DID YOU LEAVE ME!"

As blind yon struggles the brown devil saw him and runs after him

Blind yon ran as fast as he can catching up with the pack in the process as the brown devil follows them.

"That's probably the last we seen of them" said jake

"Are you sure?" Said max

"of course i think so..."

"Well let's all continue back home gang this way"

Are heroes continue their journey back to their home but what they didn't know is that they gonna meet a old friend.

Our heroes escaped into the mountains to rest.

"I miss my mom..." Said the baby Ankylosaurus

"Look we will find the herd i promised" said Jake

"Even if we do half of us will already be dead" said max

"Yeah and what about those sharp tooth dudes i think there's still following us" said a infant in the herd

"Look if we stick together we will survive, if we don't then we will end up like the horned beast we killed" said Sally

"Sally's right we need to work together to survive" said max

Suddenly a loud stomp was heard

"IS IT THE RAPTORS?!" Said max in a worried voice

"It's not the raptors" said Jake

Suddenly a herd of 4 meter tall beast with a long nose and two long tusks

Are approaching our heroes

"What are those things Jake..." Said max whispering

"how am i supposed to know!" Said jake

Suddenly a elderly female spoke

"Excuse me are you all lost" said the beast

"Uh yeah..." Said Sally in a confused voice

"Who left you here?" Said the Elder

"We were attacked by those raptor things there was also a blind baryonxy but i don't think they know where we are" said Jake

"Oh goodness. follow me" said the elders

"You will be safe with the herd and i do believe we also found some of kind with us" said the elderly one

"Who are you?" Said max

"The herd calls me the elderly one. I rule these snowy lands and the plains bellow it" said the elderly one

"And i believe there they are"

"Kids?" Said a familiar voice

"Mom..."

"Max? MAX!"

"MOM!"

Max's father and mother we're reunited once again followed by...

"SALLY!"

"DAD!"

Sally's parents

And the rest of the herds parents

Except of Jake...

Suddenly a damaged triceratops entered. It has one of it's horns missing

"Dad?"

"Son?"

"Where's mom..."

"..."

"..."

"Your mom.... Has been killed by the raptors..."

"..."

"I'm sorry but i did my best..."

"Why... Din't... YOU PROTECT HER"

"There were two many of the-"

"AND YOU WERE THE LEADER OF THE HERD"

"LOOK!"

"The raptors weren't alone they have a alpha or Something..."

Jake realized 16% of the herd was missing...

"This alpha massacre 16% of our herd because we fought back..."

"Sometimes it's too late to save a family member or just a family...."

"..."

Jake runs away from the herd into the snowy fog shedding alot of tears on the way until....

"GOTCHA" Said a raptor snatching Jake

"WE GOT EM NOW LETS GO AND TELL THE BOSS!"

"OR WE COULD EAT HIM"

"NAH SCREW THAT LETS GOOOOOOOO!"
